

This list of contractor information is provided at the request of marina slipholders. It is intended to facilitate and assist slipholders in identifying contractors who may be eligible, to work on their vessel. The list is comprised of contractors who have provided the marina with a certificate of insurance in the last couple of years. New contractors may provide insurance and thereby become eligible to work in the marina but not be added to the list immediately. To be approved to work in the marina, the current version of the Marine Contractor Rules & Regulations (MCRR) must be signed. The MCRR will change to comply with current applicable laws, ordinances, resolutions, rules and regulations of Federal, state and local entities. A contractor may have signed an earlier version of the MCRR but may not have signed a current version. Contractor information can change on a daily basis – insurance expiration dates and contact information changes. Merely being listed does not ensure that a contractor is authorized to work in the marina (nor does it signify an "approval" or "recommendation" of any kind). To guarantee that a contractor that you have hired will be permitted to work in the marina, you should contact the Gangplank Dock Office at gpdockoffice@comcast.net or 202.554.5000 ext. 10, to confirm that all required documents have been received by the marina. [NOTE: The vessel owner must provide the marina with a written statement that the contractor has authorization to access the vessel.]
